Portfolio Website

SUMMARY

Aspiring DevOps Engineer with a strong foundation in cloud technologies, scripting, and automation. Proficient in Python and Linux; familiar with Docker, Jenkins, and Kubernetes. Passionate about optimizing workflows and system reliability. Ready to contribute to a dynamic team.

WORK EXPERIENCE

Code Clause — Web development Intern   **Jun 2023 - July 2023**

- Assisted in front-end development tasks using HTML5, CSS3, and JavaScript, contributing to the implementation of dynamic web pages and interactive features.
- Engaged in continuous learning and skills development.

AWS and DevOps Summer Camp, DCE Gurgaon   **Jun 2024 - July 2024**

- Gained hands-on experience with AWS services such as EC2, S3, RDS.
- Integrated Git for version control and GitHub for source code management.
- Utilized Docker for containerization of applications.

PROJECTS

1.Docker-Based Solution for Development Environments

- Developed a Docker-based solution to streamline the setup and deployment of development environments for MySQL, Java, and Python applications.
- Ensured consistent and reproducible development environments across different systems.
- Improved deployment speed and efficiency by containerizing the development stack.

2.Cloud Infrastructure Management

- Utilized AWS CLI and Linux commands to provision, configure, and manage AWS resources such as EC2 instances, S3 buckets, RDS databases, and VPCs.

EDUCATION

Dronacharya College of Engineering   **Oct 2021- Present**
Btech(cse) - 77.86%

S.D. Memorial Sr. Sec. School, CBSE   **2021**
12th - 90.4%

S.D. Memorial Sr. Sec. School,CBSE   **2019**
10th - 83.4%
